

Environment & Water Technologies | Japan

FROM
11 MAR. 2019 TO 15 MAR. 2019

Closed for Application

In 2019, the **Environment & Water Technologies** market-scoping mission to Japan will take place between **11-15 March 2019, in Tokyo**.

Up to 40 of the most innovative European companies in the sector have a chance to participate in a week-full of opportunities to **probe the Japanese market** and **establish long-term business connections**.

The five-day market scoping mission week in Japan includes coaching on the Japanese Environment & Water Technologies market by local sector experts, site visits, networking opportunities and 4 business exhibition days.

The exhibition days give the opportunity to the companies selected to showcase their products and services at N-EXPO 2019, the largest trade fair in Asia focused on the environment and development of sustainable society.

For more information on the EU-funded market-scoping mission, read the attached [Business Mission Information](#) [1] document. **Send you expression of interest before 23 November 2018.**

For any details related to applications, contact a representative from the European coaching network for the programme at coaching.network@eu-gateway.eu [2].

Funded by the
European Union
