

Paths to prosperity in South East Asia with EU Gateway | Business Avenues

04 Dec. 2020

In less than 5 years, **EU Gateway | Business Avenues organised 20 business missions in South East Asia to help European companies** tackle this up-and-coming region, two markets at a time.

The continuous economic development, the **new Free Trade Agreements with Europe** and the growing interest in innovative products and services opened the way for pioneering European companies in the following sectors: **Environment & Water Technologies, Green Energy Technologies, Healthcare & Medical Technologies, ICT, Construction & Building Technologies, Organic Food & Beverage, and Contemporary European Design.**

More than 10,200 pre-arranged B2B meetings in Asia, 2750 new jobs in Europe and many of success stories later, the 20 business missions are crowned with success. **Singapore, Indonesia, Malaysia, Thailand, Vietnam, and the Philippines** are no longer mysterious or unattainable for **nearly 900 companies from Europe**, which will continue to further develop and strengthen these ties in years to come.

Find the expanded **description of the business missions and results in [South East Asia](#)** [1].
